

Attention!!!

As of 8/8/2022 In order to stay compliant with the most recent laws and guidelines (LD 796) B&S Scrap Recycling will now **require** the following to purchase catalytic converters:

- A valid photo ID (address, DOB, etc)
- A valid phone number
- A Converter with the vehicle's VIN # recorded in a permanent, legible fashion on it. (stamped or marked)
- A waiver (provided here) signed confirming ownership of the converters.

B&S Scrap is NOT legally allowed to purchase a catalytic converter if:

- The Converter being sold has not been marked with the vehicle's VIN #.
- The vehicle's VIN # on the converter is not valid according to NESPIN (an online uploading system provided at B&S).
- The vehicle's VIN # on the converter is not **CLEARLY** legible.

*If you do not have the VIN # to the vehicle in which your converter came from you **MUST** contact the Secretary of State (207-624-9000 ext 52144) for a temporary ID # for your converter.

Thank you for your understanding and patience as we all adjust to these new guidelines!
